

Peer Evaluation Form for Group Work

Your name Christopher Musitongo

Make sure to complete both pages of this form.

Write the name of each of your group members in a separate column (including yourself).

For each person, indicate the extent to which you agree with the statement on the left.

Use a scale of 1-4 (1=strongly disagree; 2=disagree; 3=agree; 4=strongly agree). Total the numbers in each column.

Demonstrates a cooperative and supportive attitude.	4	4	2	
Contributes significantly to the success of the project.	4	4	1	
TOTALS	24	24	7	

Feedback on team dynamics:

1. How effectively did your group work?

I think overall we meshed very well together, however it was quite tough as one of our members was very unresponsive which did add a bit of pressure getting closer to the deadline, but overall everyone did their part and was quite helpful.

2. Were the behaviors of any of your team members particularly valuable or detrimental to the team? Explain.

Nothing stands out, but I believe that everyone's positivity and encouragement really helped us throughout this project. I know there were points myself where I thought we would not submit it on time or finish it but we did it and having a positive attitude really helped us

3. Outline what elements/tasks of the project you performed and what elements were performed by your team members. In doing so you must also allocate a percentage to each member (including yourself) to indicate effort made by each member (the total should add up to 100%) – for example: John 40%, Mary 30%, Julie 30%

Chris (45%)

- Helped decide on the idea of which sustainability goal to go for.
- Integrated Bootstrap to make web pages more responsive.
- Debugging code, make sure file structure is shared between team members.
- Coding the navbar to make it consistent across websites.
- Led check-ins and addressing any pain points within the group and setting targets.

Aidas (45%)

- Helped also decide on which sustainability goal to go for.
- Ensures branding was consistent across all pages.
- Created wireframes and supported in documentation and reporting.
- Ensured all filenames are uniform between each of the members.
- Ensuring CSS is uniform between all pages.

Gedeon (10%)

- Created web pages for their specific topics.

4. What did you learn about working in a group from this project that you will carry into your next group experience?

Regular check-ins and keeping people accountable is a key takeaway that I learned from this which I will be carrying into future group projects. I feel a lot of people are afraid to lead, so it's important to be the one that steps up to help keep things going and call out things when necessary.
